Acting Village Manager Townsend responded that Family Dollar Store is a privately owned business, and the Village has no control over their employee. Relating to the Cable Studio she stated that it is on the list to come back, however, with the lack of full-time staff volunteers are needed; relating to the Golf Club she stated that there is action on the agenda tonight to address that issue.

Mayor Covington responded that relating to the Cable Studio she wants to turn it over to an all-volunteer run operation as it was done in the past.

She asked for status of refunds to individuals who had made deposits or paid for membership at the Golf Club; she stated that "We The People" have been illegally putting flyers in mailboxes, and that she wants to see another Town Hall meeting soon.

Acting Village Manager Townsend responded stating that the Board has been holding strategic planning meetings every Tuesday, and the budget will be addressed next Tuesday, to hopefully shed some light on the financial status. She commented that everyone's cries are being heard and that some of the programs will come back; some will not. She reiterated the fact that the Village is broke. Relating to refunds at the Golf Club, she stated that they have been refunding deposits, and was not aware of any outstanding. She stated that individuals who had not received refunds should contact the Village Hall so that issue could be resolved.

Mrs. Marilyn Crockett addressed the Board and voiced her concerns over several items including whether Hickok Pool and Riegel Farm would re-open; status of the cityscape property which is an eyesore, dangerous, and deteriorates property value; she asked if the Mayor and Board are still receiving their pay, and stated that if we don't have the funds to pay for employee salaries, it does not seem appropriate for them to pay themselves, since the Mayor stated when she was running for re-election that if she was elected she would repeal the ordinance granting raises to elected official. She also asked if there were any plans to bring development along the I-57 Corridor, and if the Village would be selling the golf course.

Mayor Covington responded that she attempted to pass legislation to repeal the raises, but was voted down by the Board.

Acting Village Manager Townsend responded that the Village is not seeking to sale the golf course; that State Statute does not allow an increase or reduction in salaries of elected officials during their term of office. She explained the process for development along the I-57 Corridor where traffic count influences the process greatly.

Trustee Oscar Brown corrected the statement and Mayor Covington and stated that legislation was passed to repeal the increase of elected officials' salaries beginning with the next term. Mrs. Gloria Brookins addressed the Board and asked if any ordinance had been passed to address public comments; she stated that the agenda is not on the Village website, and asked the Board what they plan to do to address the financial situation of the Village. She stated that there is a need for a Town Hall Meeting so that the residents can be fully informed of what is going on in our community. She stated that RoBo calls are made to announce other thing, and wonders why they were not made to inform residents of this critical situation. She further stated that the overgrown weeds around Riegel farm has caused allergic reactions for her and her family, and that this is a health and safety issue, and she wants answers and action.

Mayor Covington responded that she had a good meeting were some residents came and others didn't. However, she has spoken with Ms. Townsend about scheduling another Town Hall meeting, and that they are processing video recording of the Board Meetings to be put on YouTube.

Acting Village Manager Townsend responded that she appreciates the comments from Mrs. Brookins, and had spoken with her relating to the weeds, and that she and Public Works Director Richardson would again reach out to her on Wednesday to address a resolve on this issue. Relating to the financial situation she stated that we cannot fix what is wrong until we know what our fiscal financial condition is, and after June 21 we should begin to know how we can move forward.

Public Works Director Richardson responded to Mrs. Brookins relating to the grass cutting stating that during his tenure The Public Works Department is working as such, with only six people and limited equipment, they also are responsible for grass cutting at the golf club, I-57 corridor, and all of the Village property that that was previously contracted out.

Mayor Covington responded that under her watch things that were wrong were stopped, and stated that we need to come together and make our home with it should be.
