

Experience, commitment, honor.
Put them to work as you help others.

With over 50 years in healthcare, Humana has a proud history of serving veterans. We're expanding that commitment with a suite of products to improve the lifelong well-being of veterans and their families.

Exciting employment opportunities are now available for veterans

We're looking for veterans to join our sales team to support our Veterans Initiative. If you're currently an agent – or just getting started in the insurance industry – we want to talk to you. Veterans can relate to agents who truly understand them – people who offer the best possible experience when discussing healthcare benefits.

We also have other employment opportunities for **veterans and their spouses** across Humana – areas like customer care, clinical innovations, finance, information technology, and more.

Are you that person?

Go to [Humana.com/careers](https://www.humana.com/careers) to find out and apply today.

Humana is honored to support the Entrepreneurship Bootcamp for Veterans with Disabilities. Founded in 2007, this national program opens doors to business ownership for veterans.

Humana®

Lifelong well-being for veterans and their families
