

# BAC: THE TILE UNION

# The Tile Industry's Leading Source of Experienced Contractors and Installers.

## State-of-the-Art Training

Our 4-year registered apprenticeship combines classroom and hands-on learning with real-world experience, totaling over 8,500 hours of training and turning out highly qualified installers.

## ACT Certified Installers

BAC has more installers with the Advanced Certification for Tile (ACT) than any other industry organization. ACT installers are tested and vetted for their ability to meet ANSI standards and TCNA guidelines.

## Experienced Contractors

Our contractors take pride in the quality of their projects and stay on the cutting edge of industry standards through our comprehensive training programs. As union contractors, they're committed to maintaining safe workplaces and providing the pay and benefits that ensure their employees are the most qualified.

## Free Project Support

Our team of technical experts offers free support at any phase of your project, including design and detailing assistance, plan and specification review, and job site troubleshooting.
