The 80,000 square foot shopping center on 20 acres, zoned B-2 and is in a TIF District, offers several opportunities. There is a 35,000 square foot space formerly occupied as a grocery store (this space can be divided). There are three smaller store fronts available for various uses.
Will Cook Enterprise Zone - Benefit Process Summary

Outline of incentives:

Property Tax - Property taxes are abated based on the increase in assessed valuation due to new construction, renovation or rehabilitation of eligible commercial and industrial properties. The value of said construction, renovation or rehabilitation requires a minimum building materials purchase of $50,000. The abatement will be for five consecutive years beginning with the real estate taxes for the first full year of the facility's commercial operation. The abatement will consist of 50% of the amount excess of the base amount year and the next (4) consecutive years. This benefit will not be applicable if the project investor is also the recipient of tax relief for this property under the terms of a Tax Increment Finance (TIF) agreement or other substantial property tax abatement provided by a unit of local government.

Fee Waiver - A waiver of 50% of administrative building permit or zoning application fees for projects of industrial or commercial building construction or rehabilitation in which the cost of building construction materials will exceed $50,000. Waiver does not apply to pass through costs.

Sales Tax Exemption - A point-of-sale tax exemption is available on building materials incorporated into real estate in the Will-Cook Enterprise Zone. In order to receive this exemption, building materials must be used for remodeling, rehabilitation or permanent new construction. Projects with $20,000 in building materials or more will be eligible for a BMEC.

Enterprise Zone Machinery and Equipment Consumables/Pollution Control Facilities Sales Tax Exemption - A 6.25 percent state sales tax exemption of purchases of tangible personal property to be used in the manufacturing or assembly process or in the operation of a pollution control facility within an Enterprise Zone is available. Eligibility is based on a business making an investment in an Enterprise Zone of at least $5 million in qualified property that creates a minimum of 200 full-time equivalent jobs, a business investing at least $40 million in a zone and retaining at least 2,000 jobs, or a business investing at least $40 million in a zone which causes the retention of at least 80 percent of the jobs existing on the date it is certified to receive the exemption.

Enterprise Zone Utility Tax Exemption - A state utility tax exemption on gas, electricity and the Illinois Commerce Commission's administrative charge and telecommunication excise tax is available to businesses located in Enterprise Zones. Eligible businesses must make an investment of at least $5 million in qualified property that creates a minimum of 200 full-time equivalent jobs in Illinois, an investment of $20 million that retains at least 1,000 full-time equivalent jobs, or an investment of $175 million that creates 150 full-time equivalent jobs in Illinois. The majority of the jobs created must be located in the Enterprise Zone where the investment occurs.

Enterprise Zone Investment Tax Credit - A state investment tax credit of 0.5 percent is allowed a taxpayer who invests in qualified property in a Zone. Qualified property includes machinery, equipment and buildings. The credit may be carried forward for up to five years. This credit is in addition to the regular 0.5 percent Investment tax credit, which is available throughout the state, and up to 0.5 percent credit for increased employment over the previous year.

Contribution Deduction - Businesses may deduct double the value of a cash or in-kind contribution to an approved project of a Designated Zone Organization from taxable income.

Fees

An administration fee not to exceed .5% of the total cost of construction materials included on the sales tax exemption application form is due upon the issuance of the sales tax exemption certificate by the Zone Administrator and a summary of construction material costs must be provided to the Zone Administrator at the same time. The maximum fee allowed by Public Act 97-905 is .5% of the total cost of building materials to a maximum of

Effective 2.25.16
$50,000 per project.

Requirements for benefit

Construction must be of the nature that a building permit would be required. A completed exemption form with original signatures must be submitted to the Zone Administrator prior to the start of the project.

But-for clause

No certificates will be issued after the start of construction.

Boundary Maps

Only maps approved by the administrator should be distributed by the jurisdictions. Confirmation of zone eligibility is the sole responsibility of the zone administrator.

Partial Zone Projects

Construction projects not wholly located within the enterprise zone will not be eligible for benefits. The Illinois Department of Revenue has an informal “audit proof” policy. Meaning, all activities taken on by owners and contractors must stand up to the scrutiny of an audit. Because of this, the Will Cook Zone will not be certifying any projects located across the zone polygon.

Timing

If all paperwork is in order, sales tax certificates will be issued within 2 working days.

Reporting Requirements

Each contractor or other entity that has been issued an Enterprise Zone Building Materials Exemption Certificate under Section 5k of the Retailers’ Occupation Tax Act shall annually report to the Department of Revenue the total value of the Enterprise Zone building materials exemption from State taxes. Reports shall contain information reasonably required by the Department of Revenue to enable it to verify and calculate the total tax benefits for taxes imposed by the State, and shall be broken down by Enterprise Zone. Reports are due no later than May 31 of each year and shall cover the previous calendar year. Failure to report data may result in revocation of the Enterprise Zone Building Materials Exemption Certificate issued to the contractor or other entity.

Boundary Amendments

In the event a boundary amendment is required, the zone administrator will be notified. This process can take 6 months to complete.

Additional Taxing District Offerings

Language contained in the act allows for the offering of tax abatement for additional districts but the activity must not be conducted case-by-case.
