PUBLIC SAFETY ANNOUNCEMENT New Illinois Coronavirus Portal

January 26th, 2021

Building on the state's progress as it moves into the early stages of Phase 1B of the COVID-19 Vaccination Administration Plan, Governor JB Pritzker announced a new portal that can be found at <https://coronavirus.illinois.gov> to provide residents with easily accessible information about the COVID-19 vaccine. This portal will provide eligible residents with nearby vaccination sites, information on how to make an appointment to receive the vaccine, updates on the state's plan and eligibility, and answers to frequently asked questions about the vaccine.

Walgreens is providing vaccines at 92 sites across the state. Eligible residents can schedule an appointment at a nearby Walgreens at <https://www.walgreens.com/findcare/vaccination/covid-19>

Jewel-Osco will begin vaccinating eligible residents soon. Their registration link is now live and can be found at <https://www.mhealthappointments.com/covidappt>

Over the next few days, additional pharmacy partners will be coming online and opening registration for appointments. Together, this will provide hundreds of sites in all parts of the state.

At this time, these sites will be available **by appointment only**. As federal supply of vaccines increases, and Illinois receives more vaccines, the state will launch walk-in locations and expand sites to additional providers like doctor's offices and urgent care clinics.
